

A River Runs Through It: Our Stories and Our Work from Headwaters to the Sea

3 Informative Tracks

- What the Lake Lanier Decision Means for Georgia: In this track, we will look at how this decision offers and opportunity to create a true “culture of conservation” where we use water efficiently all of the time and not just during times of crises.
- Environmental Issues on the Coast: This track will explore the current environmental issues on the coast and discuss what is being done by groups to address those issues.
- Watershed Protection and You: This track hosted by Georgia Adopt-a-Stream will focus on monitoring pollution and river health for the layperson.

Friday Workshops

- Telling Your River Stories with Janisse Ray
- Bacterial Sampling Training with Georgia Adopt-a-Stream
- “Get the Dirt Out” Train the Trainer

Networking, Exhibits and Fun

- A Friday night party featuring live music, awards ceremony, food, drinks, and a live and silent auction

Georgia River Network

Georgia River Network (GRN) is working to ensure a clean water legacy by engaging and empowering Georgians to protect and restore our rivers from the mountains to the coast. GRN fulfills a unique role within the conservation community by building and supporting local watershed groups and citizens as well as working with regional and national partners to advocate for strong protections for our rivers. We provide a myriad of educational training opportunities, including our annual conference.

Our Conference

Our conference is an annual gathering of Georgia citizens, leaders and businesses interested in protecting and restoring Georgia’s rivers. There will be exhibit space for sponsors and abundant networking opportunities for clean water advocates from across the state. We hope you will consider sponsoring this exciting conference and help leave a clean water legacy in Georgia.
